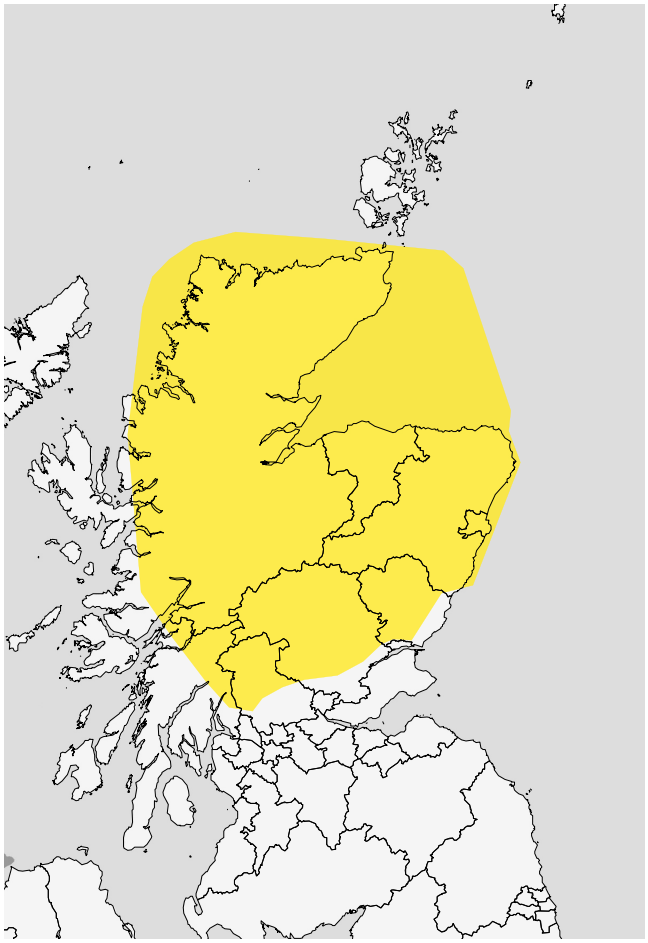
Yellow warning
Ice

Between
15:00 Tue 27 Dec 2022 and
10:00 Wed 28 Dec 2022



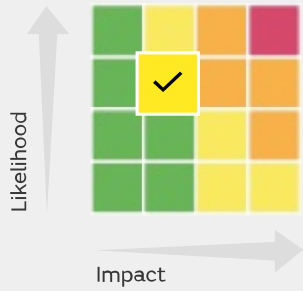
Patchy ice is expected to develop on untreated surfaces as rain and snow eases this evening

What to expect

- Probably some icy patches on some untreated roads, pavements and cycle paths
- Some injuries from slips and falls on icy surfaces

Further details

A band of rain and snow will clear north through Tuesday afternoon and evening with scattered showers following through the first part of Tuesday night. With surfaces falling below freezing after dusk, patchy ice is likely to develop on untreated surfaces with the potential for some wash-off of previously treated surfaces where showers fall.



Medium likelihood of low impacts

Issued at 10:08 Tue 27 Dec, 2022
